INVERT DEPTH!**

**EARTHSAFE**  
WASTEWATER TREATMENT SYSTEMS

A DIVISION OF ECO WATER HOLDINGS

*Also available for Reln poly tank wastewater treatment systems.*

*The new poly tank risers are available in kit form and come in 4 segments per tank plus a stainless steel (marine grade) bolt fitting kit and instructions.*

*The 4-part riser is far easier to transport than a single ring and it's twin-skin ribbed design has been certified to comply with ANZ standards.*

*It is the strongest, best designed poly riser on the market. Simply silicone the riser joints and fit it into the tank and lid locating lips, then bolt the 4 pieces together with the stainless bolts provided.*
